Abstract	How to solve SSD disappear problem when restarting DEBIAN 9.		
Keyword	DEBIAN 9, SSD		
Related Product	UNO-2362G		

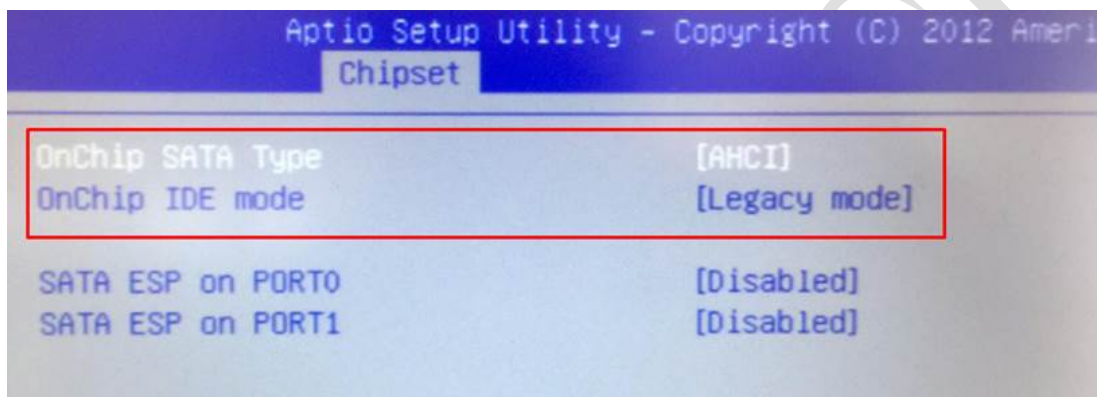

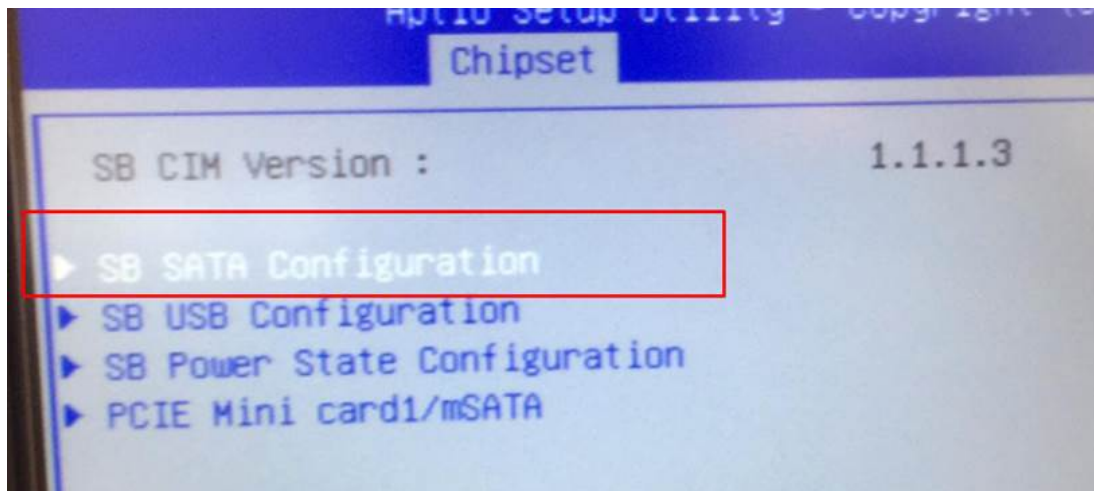

■ **Problem Description:**

After installing DEBIAN 9 and restarting the operating system. It will go directly into the BIOS and the SSD (96FD-M032-PLG1) will disappear.

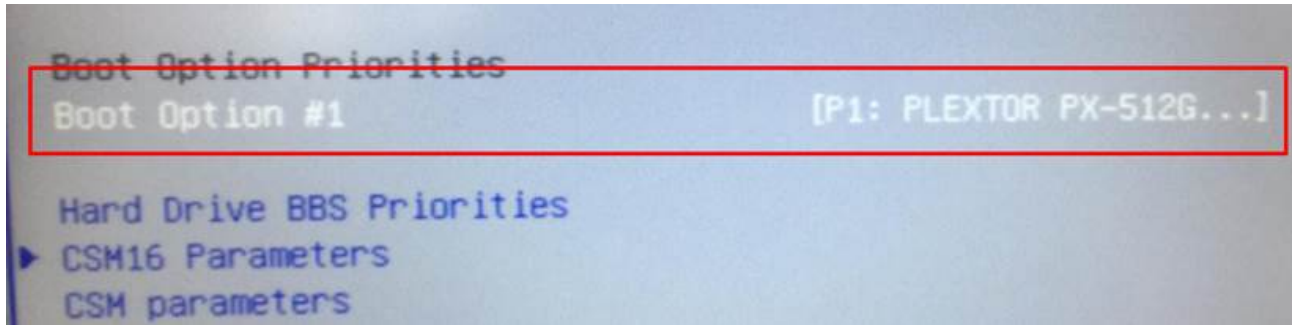

■ **Answer:**

1. Press del go to BIOS.
2. Select Chipset -> SB SATA Configuration -> OnChip SATA Type [AHCI]
-> OnChip IDE mode [Legacy mode]

3. Check from Boot -> Boot Option #1 the SSD should be first one.

4. Select Save & Exit -> Save Changes and Exit
