Problem Description & Architecture:

How to use computer purchased from Advantech to get free 75 tag license of WebAccess/SCADA

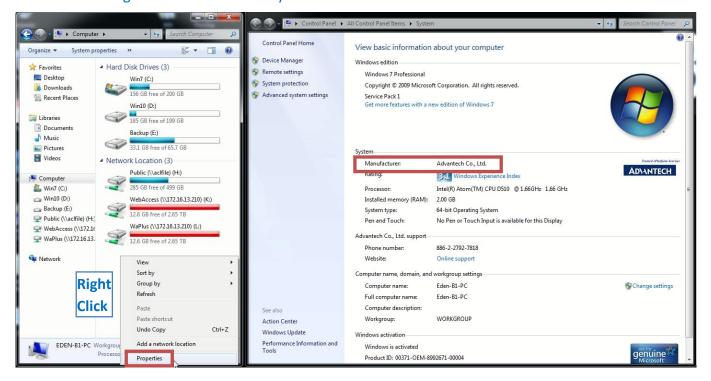

Enabling an Intelligent Planet

Brief Solution - Step by Step:

%Please prepare as following before get a free license

- 1. Apply an account for WISE-PaaS Market Place
 - (<u>https://wise-paas.advantech.com/en-us</u>)
- Please make sure your computer is manufactured by Advantech
 A. Please go to Control Panel → System to check manufacturer

B. If this computer cannot be identified as Advantech produced through equipment surface or Windows System information, please download and install SUSI tool to check. (http://downloadt.advantech.com/download/downloadsr.aspx?File_Id=1-1V38M5N)

VA x 🔛 Demo Tool -🍯 Internet Explorer Help 😻 WebAccess Client HWM Information WDog 💐 Windows Anytime Upgrade Eden-B1 Windows DVD Maker Item Name Content Documents Windows Fax and Scan Susi4 Information 😨 Windows Media Center Board manufacturer Pictures Advantech 🖸 Windows Media Player Board name UNO-2178A Windows Update Music BIOS revision V1.13 XPS Viewer 4 0 15709 📕 7-Zip Driver version Computer Library version 4.0.15709 Accessories Advantech Control Panel SUST SusiDemo4 **Devices and Printers** 2 Uninstall Advantech Automation Default Programs AnyDesk Games Help and Support Maintenance 📙 Microsoft Office 4 Back Shut down 🕨 Search programs and files Q

Enabling an Intelligent Planet

3. Please install WebAccess SCADA 8.4.X or later in computer from Advantech.

(<u>https://support.advantech.com/support/DownloadSRDetail_New.aspx?SR_ID=1-MS9MJV&Doc_Source=Download</u>) A. Right click at computer icon and choose "License" to check if correct version is installed.

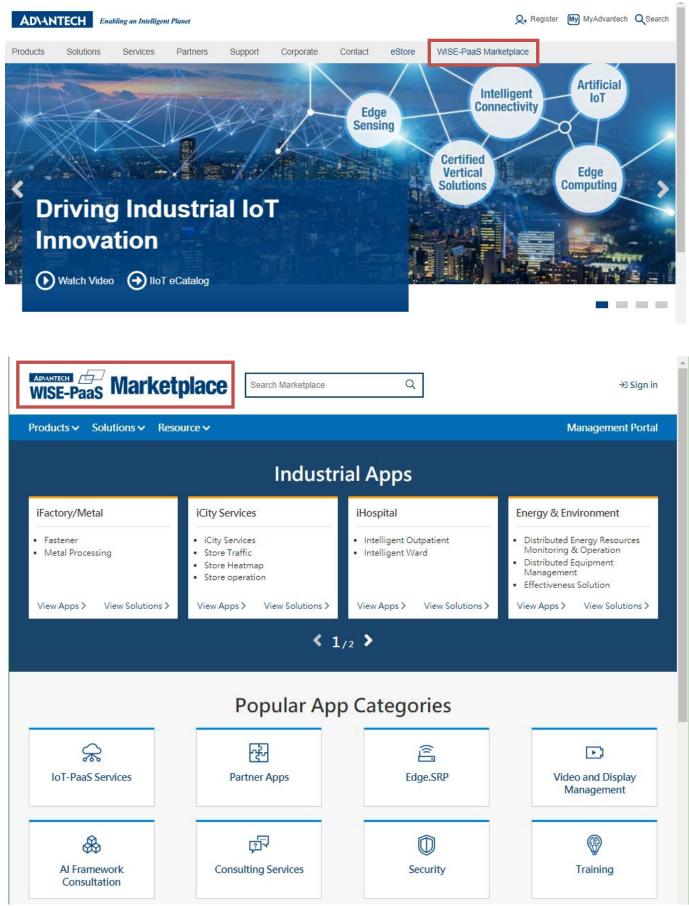

B. You can go to Control Panel → Applications to find software "WebAccess Node" and check its version.

version.

Enabling an Intelligent Planet

%If you are using WebAccess/SCADA 8.4.1~8.4.3, please follow steps as following:

(Please go to step 9 directly if you are using 8.4.4 or later)

A. Re-Install WebAccess SCADA to 8.4.4 or later version.

(https://support.advantech.com/support/DownloadSRDetail_New.aspx?SR_ID=1-MS9MJV&Doc_Source=Download)

B. If you cannot re-install to 8.4.4 or later version, you need to follow B-1~B-3 to update two data in WebAccess

B-1. You need to use Exit WebAccess tool to turn off WebAccess, the link is as below:

(https://support.advantech.com/support/DownloadSRDetail New.aspx?SR ID=1-1KRCCHH&Doc Source=Download)

B-2. Copy BwPAlarm.dll and DATACORE.exe to C:\WebACcess\Node. You can check modified date to make sure if it can accomplish steps as following.

B-3. Reboot your computer.

9. Please right click at WaActivate.exe and use "Administrator" to open WebAccess Activate / Deactivate tool

> If your computer does not have license applied by WaActivate.exe, the button would be "Generate Activation File".

>If your computer has license applied by WaActivate.exe, the button would be "Generate Deactivation File".

10. Please press "Generate Activation File", tool would get some information from computer and create a WaKeyInfo.Enc file.

11. Please go back to "Activate Software Licenses" page, choose WaKeyInfo.Enc file by clicking "Browse" and press "Upload" to send file to server. You will see "Your activation has been successfully processed" and then download license Key files.
