<b>Abstract</b>	The comparison table for WISE and ADAM series		
<b>Keyword</b>	WISE, ADAM, Comparison table, Difference, Cloud, P2P, GCL.		
<b>Related Product</b>	WISE-4012, WISE-4012E, WISE-4050, WISE-4060 ADAM-6017, ADAM-6050, ADAM-6051, ADAM-6052, ADAM-6060, ADAM-6066		

### ■ Problem Description:

What's the difference of WISE series and ADAM series? Do they have the same communication protocol and advanced function like P2P and GCL?

For WISE series, what's the difference between WISE and WISE-LAN? Besides the different communication interface, is there any other difference?

■ **Brief Solution:**

Please see the following comparison table between ADAM-6000-CE, ADAM-6200, WISE-4000-LAN and WISE-4000.

	ADAM-6000-CE	ADAM-6200	WISE-4000-LAN	WISE-4000 (Wireless)
Communication Interface	Ethernet	Ethernet (Daisy-Chain)	Ethernet	Wi-Fi 2.4G
				IEEE 802.11b/g/n
P2P/GCL	Support	Support	X* (P2P is under evaluation)	X* (P2P is under evaluation)
Utility Operation	Support	Support	Support	Support
MODBUS/TCP	Support	Support	Support	Support
REST	Support (XML format)	Support(XML format)	Support(JSON format)	Support(JSON format)
Local Data Logger	X	X	Support	Support
Cloud Data logger(Dropbox)	X	X	X	Support
