

PCA-6106

Dimensions: 142.00 x 175.00 mm

Unit: mm

Termination Resistor Signals

The termination resistors provide an impedance mismatch at the end of the bus to prevent signal reflections. This mismatch has to be balanced by the capability of the CPU and option cards to electrically drive the load imposed by the resistor.

<u>Resistor</u>	<u>Signals</u>	<u>Resistor</u>	<u>Signals</u>
RP4	SA11-SA4	RP2	SMEMW, SMEMR, IOW, IOR
RP3	SA19-SA12	RP6	SBHE, LA23-LA17
RP1	SD0-SA7	RP5	SA3-SA0
