[Abstract]

How to Use ActiveSync in UNO-1110(CE6.0)?

[Solution]

- 1. Please install "Windows Mobile Device Center" for your host computer. You can search "Windows Mobile Device Center" on google.
- 2. Connect Host computer's COM1 to UNO-1110's COM1.
- Open "Windows Mobile Device Center". Then, click connection setting. Please disable USB connection and enable "allow connection through COM1".
 <u>PS: Please disable "allow connection through COM1" if you don't want to use</u> Windows Mobile Device Center. Otherwise, COM1 will always be used.
