[Abstract]

How to Install SDK for UNO-1110(WinCE 6.0).

[Solution]

1. Since WinCE 6.0 used library of Visual Studio 2005, the customer has to develop their application program on Visual Studio 2005 environment.
2. After installing SDK of UNO1110, customer can compile an application program which can run on UNO-1110.

While install SDK on develop computer, please choose **Custom install** and **cancel Documentation item**. Then, SDK can be installed successfully.
