Abstract	Combine two or more images to one image		
Keyword	combine image, Inspector Express		
Related Product	Inspector Express		

■ **Problem Description:**

If 2 or more cameras is connected in the system and you want to combine two images to an image for inspection.

■ **Brief Solution - Step by Step:**

1. Open engine.ini file. You could access it in “Browse to Application Data Folder” link and go to the Solutions folder.(This example will demo a 2 camera solution.)

2. There is already 2 lines in the engine.ini:

ImgHorzTiles=2

ImgVertTiles=1

If you set like this, the image will be combined horizontally, one on left and the other on right.

If you set like following:

ImgHorzTiles=1

ImgVertTiles=2

You will get the image be combined vertically, one on top and the other on bottom.
